

PowerPusher E-750 Electric Wheelbarrow™

The **PowerPusher E-750 Electric Wheelbarrow™** safely and easily transports loads weighing up to 1,000 pounds. Available with multiple tubs, including the galvanized steel tub, heavy-duty poly tub and slurry tub, this motorized electric wheelbarrow improves safety and efficiency by eliminating ergonomic challenges and unnecessary production delays. With a top speed of up to 4 miles per hour and tubs 4 times the capacity of a standard wheelbarrow, the E-750 gets the job done faster. And its silent motor with zero emissions is suitable for indoor or outdoor use fitting through standard doors.

Designed to minimize strain, the E-750 Electric Wheelbarrow provides push-button powered dump capability. It is the ideal piece of equipment for construction, demolition, cement work, landscape, farms and more with multiple standard and custom attachments available.
